

Mon Premier Déo

MY FRESH DEODORANT

Body

Fight against the first bad smells
Alcohol free - Aluminium free
Mild fragrance, for girls and boys

Certified organic deodorant, specifically designed for children. Without alcohol or aluminium salts, it is ideal for the first sweats. It does not attack the sensitive skin of children. Antibacterial sage water masks perspiration odours without blocking its natural process. Bamboo extract absorbs moisture. Apple water and aloe vera soothe and provide a fresh feeling.

How do I use it ?

After the shower, I dry my skin well. Then I apply the deodorant to my armpits, holding the bottle with the ball downwards.

How does it work ?

- Organic apple water is full of active ingredients such as trace elements and mineral salts. It has antioxidant and skin-repairing properties.
- Organic aloe vera is known to nourish and soften the skin. It nourishes, restores vitality and softens the skin.
- Sage water provides antibacterial agents that fight against the appearance of bad odours and regulates excessive perspiration.
- Bamboo extract helps to absorb excess moisture.
- Triethyl citrate is known to inhibit the enzymatic breakdown of sweat constituents and thus prevent odour formation.
- Zinc PCA has purifying and antibacterial properties. It also reduces skin redness.
- Organic witch hazel leaf water has soothing, astringent and antiperspirant properties. It will relieve irritation, tighten the pores of the skin and thus prevent excessive sweating and body odour.
- Vegetable glycerine is known for its humectant, moisturising and softening properties. It attracts water and helps to maintain the skin's natural moisture content.
- Organic bisabolol is derived from the distillation of Candeia essential oil and has soothing, anti-inflammatory, repairing and antioxidant properties. It helps to combat skin irritation and redness, making it particularly suitable for sensitive skin.
- Organic apricot oil has toning properties and softens even the driest skin. It also reinforces the hydrolipidic film and protects the skin from dehydration.
- Organic sweet almond oil has soothing, softening properties. It calms irritations.

The result :

My First Deo Apple Aloe prevents unpleasant odours and soothes the skin to feel clean all day.
