

# Mon 1<sup>er</sup> déo solide Grapefruit-Mint

## SOFT AND MELTING DEODORANT

Body

Absorbs moisture and neutralizes bad odors

Melting texture

Zero plastic

Solid deodorant, certified organic, specifically formulated for children. Ideal for the first sweats, its active ingredients absorb moisture and neutralize the bad odors of perspiration. The synergy of the natural active ingredients, from plants, helps to regulate the cutaneous flora. It is formulated without sodium bicarbonate and without essential oils not to attack the sensitive and fragile skin of the children.

The grapefruit regulates the cutaneous flora and the mint calms and refreshes.

### How do I use it?

At the first use, I detach the tab to open my deodorant. The lower part is used to hold my deodorant, the upper part will serve as a cap.

I hold my deodorant by the lower part of the case, I slide it 4 or 5 times under my clean and dry armpit to melt the product, covering the whole area. I store it in its case.

Super economical & ecological: this solid deodorant lasts at least 3 months for daily use!

### How does it work?

- Organic shea butter: protects, softens and restructures damaged skin.
- Organic sunflower oil: known for its repairing, softening, nourishing, moisturizing and anti-oxidant properties.
- Magnesium hydroxide: a softer alternative to potentially irritating baking soda, it absorbs moisture and regulates pH to neutralize odor-causing bacteria.
- Zinc ricinoleate: a highly effective natural deodorant derived from castor oil and zinc oxide. It neutralizes the molecules responsible for the bad odors of perspiration, without blocking its natural process and without deteriorating the natural cutaneous flora.
- Triethyl citrate: recognized to inhibit the enzymatic decomposition of the constituents of the sweat and thus to prevent the formation of odor.
- Organic tapioca powder and bamboo powder: they absorb the sweat and decrease the feeling of moisture. They also give a soft touch to the deodorant.
- Organic aloe vera macerate: known to nourish and soften the skin. It nourishes, restores vitality and softens the skin.
- Organic grapefruit seed oil macerate: has an antioxidant, anti-bacterial and anti-inflammatory action.
- Organic mint leaves water: it alleviates the cutaneous discomforts and controls the excessive perspiration.

### Proven effectiveness:

The perfume of the deodorant is pleasant: 86%\*  
The fragrance is fresh: 86%\*  
The deodorant is easy to apply: 67%\*  
The deodorant does not stick to the fingers: 57%\*
